

## Upper Arlington Speech Therapy Services

Hello,

Thanks so much for your interest in Upper Arlington Speech Therapy Services!

### **The focus of UAST:**

Our practice deals mainly with pediatric age and younger adults on the autism (with and without AAC needs) and developmental spectrum, although we do see clients for stuttering, apraxia, articulation, and language, too. We serve our clients in varied locations including online, in-office, community (i.e. library, daycares, etc.), home-based, and adult day programs. However, we are open to other types of clients if there is an appropriate available SLP.

We employ SLPs and CFs on a contract 1099 basis.

Please let me know if you have skills and/or interest in the client population described, if you have or are open to clients with AAC needs, can work in different settings, and are able to work as a contractor.

### **UAST always has this need:**

Though I am not sure what our hiring needs will be at that time you graduate or move to the area, please keep in touch. Because even if you get a position with another practice or school, etc. we always can hire CF/SLPs to see clients after school, in their free time, etc. We have a waiting list and get new referrals all the time. Most of our need is for children after school and we can see them in varied settings (i.e., office, home, library, etc.). However, clients are even more flexible and available in the Summer. It's been great for CFs/SLPs that want a secondary income stream.

I was contacted by a CF and SLP about a couple of months ago, they work in the schools. The CF is doing her CF Year. They both get done with work around 3:00 and had plenty of time to see other clients for therapy. So, they are now seeing a few clients via UA Speech and doing great!

I can be sure that I could give you private referrals at any time!

Please let me know if you have further questions.

Let's stay in touch. My cell #: 614.204.5066

Thank you very much,

Lynn
